

ACADEMIC STUDIES WITH FOOTBALL TRAINING

The college has launched an exciting new course aimed at students aged 16 years of age and over who have a passion for football. At present this is only available to male students but in time we hope to extend this to female students too. This offers the chance to study A levels or the International Foundation Programme whilst having football training on weekday afternoons.

This new programme is a unique opportunity for students to gain qualifications for entry to university alongside intensive football training which could lead to playing professional or semi-professional football in the future. Football training is added to students' timetables without impacting on the core study requirements to gain their qualification.

HOW DO I APPLY?
